

## environmental policy

To fulfill its corporate social responsibility and achieve sustainable management, LG CNS has established and operates the following environmental policy.

- We establish an environmental management system to minimize environmental pollution arising from corporate activities and promote continuous improvement activities.
- We recognize the global climate change crisis as a common problem and strive to minimize the negative environmental impacts of greenhouse gas emissions.
- We strictly comply with and faithfully implement domestic and international environmental laws and regulations and stakeholder requirements.
- We transparently disclose environmental management information and performance and actively communicate with various internal and external stakeholders.

\* This policy applies to all employees and partners working at LG CNS business sites.
